FOURTH DISTRICT CLUBS ARE ACTIVE

Splendid Reports Filed at Annual Meeting in Session at Central Christian Church.

MANY VISITORS ARE PRESENT

Interesting Addresses Delivered by State and District Officers— Luncheon at Noon.

That the Federated women's clubs in the Fourth Congressional district are active and alert to present day conditions and requirements, was revealed by the splendid reports filed at the annual district convention of the Indiana Federation of Clubs in session at the Central Christian church today. Many visitors were registered and the sessions were largely attended.

Committees, appointed from the membership of the local federated clubs were in charge of the entertainment, and deserve much credit for the manner in which the meeting was conducted. The members of the credential committee were Mrs. Edith Pfaffenberger, Mrs. Blanche Barnes, Mrs. Laura Cox and Mrs. Mary Shiel.

The morning session opened at 9 o'clock with the singing of the Federation song by the audience, and an invocation by Mrs. Stella Barbour, president of the local Indiana Study Club. Mrs. Russell Sanders, of the Monday Musicales, gave an organ solo, and Miss Pearl Clark, president of the Seymour Tuesday Club, extended a very cordial welcome to the visitors. The response was given by Mrs. J. W. Riddle, of Lawrenceburg. Mrs. J. F. Goddard, Greensburg, chairman of the district organization, gave a short greeting. After the appointment of the committees, representatives from each of the twenty-eight clubs in the district, were called and gave brief reviews of the year's work.

Mrs. E. C. Rimpler, Indianapolis, president of the State Federation, made a brief talk, after which Miss Frieda Aufderheide, of the local Monday Musicales, gave a violin solo. The morning session closed with an interesting address by Mrs. O. M. Pittenger, of Indianapolis, on "Federation Extension."

At the noon hour, a luncheon was served in the church basement by the members of the Loyal Devoir Society, of the Christian church. Arrangements were made to serve a hundred guests.

The afternoon session convened at 1:30 o'clock, with an organ solo by Mrs. Lora Stewart, of the Monday Musicales. After the reports of the different committees, and the transaction of business, Miss Adelaide Gasaway, a member of the Monday Musicales, delighted the audience with her experiences while in France. After the address she sang a solo, "Awake Beloved," accompanied on the piano by Mrs. Edna Sanders. Miss Gasaway was one of three entertainers who were sent across during the war by the Indiana Federation of Clubs. Interesting addresses were given by Mrs. Rimpler, on "Indiana Federation of Clubs," Mrs. Julia C. Henderson, Indianapolis, on "Thrift," and by Mrs. Felix T. McWhirter, Indianapolis, on "Women in Political Parties." The meeting closed with the report of the resolutions committee. Officers were to be elected during the afternoon.

SPECIAL MUSICAL FEATURE

TWELVE OFFER TO DO TERMINAL DUTY

Local Brotherhood Members Volunteer to Aid in Clearing Cincinnati Yards of Freight.

ALL TRACKS ARE CONGESTED

Organized Men Recognize Contract Made for Switchmen With The Railroad Company.

Twelve members of the local Order of Railway Conductors and the Brotherhood of Railway Trainmen left early today for Cincinnati to report for duty in the Baltimore & Ohio terminals during the illegal and unauthorized strike of switchmen. The freight congestion in Cincinnati is serious as some of the switchmen left their posts of duty, turned in their passes and received pay for the time they worked. The walkout of the switchmen is regarded as illegal and is not recognized by organized trainmen and switchmen.

The volunteers for temporary service in Cincinnati presented themselves late Monday afternoon following a joint meeting of the organization. At that meeting communications were read to show that the switchmen had voluntarily left their work, that strike conditions did not exist and that need of additional assistance in clearing the tracks of freight is serious. Since the outlaw strike has been in existence many embargoes have been placed on freight and as fewer trains have been operated the train crews have suffered financially.

CORPORATION BAITING

May be Contributing Factor in High Cost of Living.

By United Press. Atlantic City, April 27—"The high cost of living may be attributed in part to corporation baiting" President Homer Ferguson told the United States Chamber of Commerce at the opening of its convention here today.

"Those responsible for corporation baiting are making the noise about profiteering," Ferguson said. "A good deal of the increased cost of living is due to tomfoolery," he declared. Ferguson cited railroad legislation as one form of corporation baiting.

"The nation's railroads now are in such shape," he asserted, "that grain cannot be hauled to market and coal can be mined but four days a week because of the car shortage."

ALLIED PROPOSAL NOT ACCEPTABLE

Senate Expected to Reject Mandate For Armenia Which Was Offered by Allied Council.

HITCHCOCK OPPOSES PLAN

Allies Strip Near East of Valuable Concessions, According to Opinion of Senators.

By United Press.

Washington, April 27—Rejection of the allied proposal that the United States accept the mandate for Armenia was forecast today when Senator Hitchcock, administration spokesman, declared he did not believe the American people would sanction such a proceeding.

Added to Republican comment which declared the plan was "an attempt to wish on us the poorhouse of the world," Hitchcock's attitude was believed to indicate definitely that congress will never give its consent to the project.

Senators took the position that the allied statesmen have stripped the Near East of everything they want and now offer to the United States the mandate for Armenia. This mandate would involve America in large expenditures and possible war, it is held.

ITALIAN DEMONSTRATION IN FAVOR OF FIUME

Take Advantage of Concert to Call Upon Lloyd George and Miller—and for Concession.

By United Press.

San Remo, April 27—Italians took advantage of a concert in honor of the visiting allied visiting delegation last night to stage a demonstration in favor of awarding Fiume to Italy.

All the allied leaders were in the audience when the orchestra played the Italian national anthem. The Italians rose and turning towards Prime Minister Lloyd George and Premier Millerand shouted "Long Live Fiume and the Adriatic. We fought for them but with 500,000 Italians dead you gave a whole empire to Greece who murdered your soldiers in the streets of Athens."

Lloyd George and Millerand only smiled resignedly. There was bitter feeling in Italian circles over the failure of the council of premiers to settle the Adriatic dispute at the session just closed. It was the more intense in view of the large concessions granted Greece.

RECOGNIZE CONTRACT.

The action of the local Order of Railway Conductors and the Broth-

erhood of Railway Trainmen in calling upon their membership for volunteers for temporary service at the Cincinnati terminals of the Baltimore & Ohio Railroad during the illegal strike of switchmen is highly commendable. The switchmen who decided to quit work turned in their passes and at their own request were paid for the time they had worked. Their walkout was unauthorized, but their action has resulted in a serious congestion of freight in the sidings and terminals. While freight is blocked at the terminals train crews are unable to operate trains on a regular schedule and suffer a financial loss. A serious shortage of necessary commodities is also threatened.

The principal reason why the organizations called for volunteers for duty in the terminals, it is explained,

is that they represented the switchmen in a contract which was made with the company. They feel they are jointly responsible for the fulfillment of that agreement. They recognize that it is just as necessary and vital that their side of a contract be carried out in good faith as it is for the company to execute its part of an agreement. The Brotherhoods have opposed the switchmen's action because they know it is illegal and unauthorized.

The right of collective bargaining is recognized throughout the country. The advantage to the employers and employees in collecting bargaining is that each side knows exactly where it stands. Contracts are made in good faith. The railroad company is expected to carry out its contract and the employees would have rightful cause for complaint if any effort were made to evade it. In the same way the company may expect that the employees' contract will be carried out. If any contract can be broken at will by either party the value of the agreement is lost and the benefit of collective bargaining fails.

The Brotherhoods by their recent action made it clear that they recognize their contracts and that they will protect the public from outlaw or illegal attempts to interfere with transportation.

Have You Ever Stopped to Think What Business Owes to Christ?

Men thought Jesus Christ a dreamer when He said:—
"And whosoever will be chief among you, let him be your servant."

To become great by being a servant—it sounds absurd. But is it absurd? Look at the great businesses of America. On what foundation are they built? When they bespeak the good will of the public, what do they say about themselves?

"Our motto is Service. Not our plants or money or salesmanship are responsible for our success. We have made ourselves efficient servants of your health and comfort and happiness, and your patronage has made us great."

The idea of service was brought into the world by Him; and on that idea modern business is built.

To keep the idea of Service vital and effective in the nation today; to train up the nation's children in its spirit; to carry its message around the world—

these are the purposes of the Protestant Churches of North America cooperating together in the Interchurch World Movement.

The Interchurch World Movement is the greatest cooperative church program ever undertaken. The feet of the Movement are planted on the solid ground of scientific facts. Its purpose is to encourage cooperation and discourage duplication; to make every man and every dollar do their utmost in the service of Jesus Christ.

As a business man, the scope and magnitude of this vast enterprise must stir your imagination; surely its purpose and ideals will enlist your support.

Do your part to make the Church a more effective servant. When your church calls upon you give—and give from your heart as well as your pocketbook.

DID NOT HAVE WELL DAY IN 12 YEARS

Mrs. Johnson Could Hardly Get About, But Is Now in Splendid Health.

"My friends and neighbors say they never saw such a wonderful improvement in a person as they have in me since I started taking Tanlac," said Mrs. Elizabeth Johnson, 208 Reed Avenue, Peoria, Ill., recently.

"For twelve years," continued Mrs. Johnson, "I don't believe any one ever suffered more from stomach trouble than I did. I was so badly run-down and in such poor health that every day was a day of misery and I can't recall the time in all these years when I was free from suffering until I started taking Tanlac. I had absolutely no appetite and practically lived on milk toast, but would suffer for hours after every mouthful I ate. Gas would form on my stomach and puff me up until I was in misery and cause my heart to palpitate so I would become deathly sick and turn as pale as a ghost. I also suffered with terrible dizzy spells, when everything would get in a whirl and I would have to sit down to keep from falling. My nerves were in such dreadful shape the least little thing would completely upset me and cause me to tremble like a leaf and break out all over with cold perspiration. It was impossible for me to get but little sleep, as I just rolled and tossed all night long and in the mornings I would be almost completely exhausted. I had lost so much weight and was so weak I could hardly get about at all and often I would have to stop my housework and lie down.

"I had tried so many different medicines without being benefited I had almost given up hope of ever getting any better, but my husband and I had been reading so much about the good Tanlac was doing other we thought it might be good for me to take. Well, the way I began to improve was simply remarkable. I commenced to sleep more at night, and it was not long before I had such splendid appetite I was hungry all the time. Now I eat just anything I want and everything agrees with me perfectly, my nerves are steady as a clock and I sleep fine every night. I have gained quite a lot in weight and have regained my strength so that my housework is actually a pleasure to me, in fact I never felt better in my life. I am only too glad to give Tanlac the praise it deserves, for I certainly owe a great deal to it."

Tanlac is sold in Seymour by Maxon's Pharmacy, and in Crothersville by C. W. Taulman, and in Brownstown by Chas. Brook.

To the Voters of Jackson County.

I am a candidate for Prosecuting Attorney of this judicial District. I believe the voters before casting their vote for a person for office should know something of his qualification for the office he seeks. I will say I have been practicing law 40 years making a specialty of the criminal practice. I have never before been a candidate. Have always worked for the success of the Republican party and never asked or received any reward. The present incumbent Mr. S. B. Lowe was elected and served as Prosecutor 3 terms in Lawrence and adjoining counties before the present term making him virtually a candidate for the fifth term. I met with an accident a few years ago, receiving injuries from which I will never fully recover; the expense of which left me in very limited means.

Your support will be appreciated.

BELIEVE NEW PLAN WILL PROTECT STOCK PRODUCERS

Indiana Federation of Farmers Will Employ Agent at Indianapolis Stock Yards.

Indianapolis, Ind., April 27—After wrestling with the live stock marketing problem for several weeks, officers of the Indiana Federation of Farmers' Associations and members of the permanent live stock committee of the organization believe they have evolved a working plan which will be of great benefit and protection to the stock producers of the state and shippers from adjoining states. Under the proposed plan the federation will have an experienced live stock agent as its representative at the Indianapolis stock yards, and later at other yards about the state, whose duty will be to look after all shipments which are consigned through his care, a small fee of 1

TO THE VOTER AT THE COMING PRIMARY

Bedford, Indiana, March 31, 1920.

Being a candidate for a second nomination on the republican ticket for the office of Prosecuting Attorney my name will appear on the primary ballot. I have two opponents and you are to determine whose name shall be on the ticket next fall as the candidate for Prosecutor. I am now holding my first term, in the circuit as now composed, of Lawrence and Jackson counties. I have always tried to perform the duties of the office in a way that I thought would meet the approval of a majority of the sensible and fairminded people of the circuit without regard to suggestions coming from personal, partisan or private interests. While I have not accomplished my highest ideals I feel confident that my renewed acquaintance with the duties of the office will enable me to make improvements, here and there, in the future.

On such account I feel desirous of a second nomination at the hands of my party. I do not feel that I have violated the confidence of the people or proved unworthy of the trust they reposed in me when they elected me in the fall of 1918, and, therefore, I come with a clear conscience asking a renomination according to the usual custom of existing political parties.

I ask the voters at the primary to think it over, bearing in mind the best interests of the public, and if they decide that someone else is more deserving of the nomination than I, there will be no complaint made, but I will take my place, where I always have been, among republicans devoted to law and order, good government and the general uplift of mankind.

Yours Truly,
SIMPSON B. LOWE,
Prosecuting Attorney.

per cent per head on hogs, calves and sheep, and 4 cents per head on all cattle to be added.

The federation is to pay the salary of the live stock agent, who in no way will serve as a commission broker. One of the features of the new plan is that the producer may consign his shipment to the commission merchant with whom he has been doing business through the farmers' agent, or he may leave the matter entirely to this agent, who in turn, will place the stock at the disposal of the commission merchant best able to handle the consignments. Officers of the federation believe that with an active representative at the yards looking after the interests of the farmer much of the trouble which has been experienced in the past can be eliminated. They also point out that it will give them a better chance to co-operate with farmers' organizations in neighboring states. The small fees to be collected for the service are to be turned over to the treasurer of the federation and credited to the live stock department.

At a meeting of the executive committee composed of John G. Brown, Maurice Douglas and E. E. Reynolds, it was decided in the absence of a "blue sky" law in this state to adopt a uniform questionnaire which will be available to all of the county associations as a protection to farmers in buying stock in various enterprises. Promotion companies and stock selling agencies will be asked to fill out these questionnaires when they visit agricultural communities.

Lewis Taylor, general secretary, has received word from many of the county associations that the farmers appear to be unanimously opposed to the Nolan excise bill pending in Congress which provides for a tax of 1 per cent on all land holdings in excess of \$10,000 valuation. A referendum vote in the twenty-eight states which go to make up the American Farm Bureau Federation was recently ordered by J. R. Howard, the national president, and it is understood that the sentiment expressed by the Indiana farmers is the same as that of the agriculturists of neighboring states.

Mrs. Robert Barlow underwent an operation for appendicitis Monday at the Schneck Memorial Hospital.

Born to Mr. and Mrs. H. A. Fields, April 26, a daughter. Mr. and Mrs. Fields reside on North Blish street.

Stomach Out Of Order? Try NR

Nothing Better to Straighten You Out After Eating Too Much. Tones Liver, Regulates Bowels. Acts Pleasantly. Guaranteed.

Many people eat too much every day and most eat much too much some days. That is why Americans suffer more than any people in the world from indigestion, biliousness and constipation.

With a little thoughtfulness and care, however, a great amount of this distress could be avoided and you'll never realize how true this is until you become one of the several million people of this country who keep a box of Nature's Remedy (NR Tablets) constantly on hand and use it whenever indigestion, biliousness or constipation threatens.

Unlike laxative purges, cathartics, such as oil, calomel, etc., which merely force bowel action, Nature's Remedy exerts a beneficial influence upon the entire digestive and eliminative system—the stomach, liver, bowels and even the kidneys. Its purpose is to promote vigorous and harmonious action of all the organs that handle the food and body waste.

That is why the results which follow the use of Nature's Remedy are always a delightful surprise to those who first try it. The action while prompt and thorough, is as mild and gentle and pleasant as Nature herself, and the thorough cleansing the body receives brings a feeling of real relief and benefit such as no laxative pill or cathartic ever produced for anyone.

Get a 25c box of Nature's Remedy (NR Tablets) and try it. There is no risk in doing so, for it must give you greater relief and benefit than any liver or bowel medicine you ever used or money back instantly. It is sold, guaranteed and recommended by your druggist.

LEW SHANK NOW EXTENDING THE HEALTHFUL HAND

Former Mayor of Indianapolis Passes Good Word Along About Trutona.

Indianapolis, Ind., April 26—"As a general tonic for building up a weakened and run down condition of the system Trutona is without an equal." These are the words of Lew Shank, former mayor of Indianapolis, spoken in what he calls "well merited praise" of the perfect tonic. Mr. Shank is now engaged in the storage business at 227-29 North New Jersey street and resides at 3547 East Washington street.

"I must say that it gives me pleasure to recommend Trutona to those suffering as I did." Mr. Shank continued, "For several years I have been bothered with indigestion and constipation. I didn't have a good appetite, either. I tried numberless medicines in an effort to get relief but to no avail.

"Trutona was recommended to me and I decided to try it. Today, thanks to this medicine, I feel more able to attend to my business than I have in years. I've found Trutona a remarkable medicine for overcoming constipation, indigestion and a weakened condition of the system. I believe I am passing a good word along in making this statement and I feel it is my duty to recommend Trutona."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorant, and has been declared peerless as a treatment for stomach, liver and bowel troubles.

Trutona is sold in Seymour at W. L. Federmann's Drug Store.

WINTER COLDS—

BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak—then indigestion.

Dr. Pierce's Golden Medical Discovery, made from wild roots and barks, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what you need to give you vim, vigor and vitality.

Take the 'Discovery' as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels.

You can procure a trial package of the tablets by sending 10c. to the Invalids' Hotel, Buffalo, N. Y.

Stevens Point, Wis.—“Ever since I can remember, when I was a child at home, Dr. Pierce's medicines have been our family medicine. About two years ago I was very much run-down. I suffered loss of appetite, my blood was bad and I had no ambition to do anything; I was miserable. I got so bad I had to take to my bed. I started taking Dr. Pierce's Golden Medical Discovery. I soon began to feel better and three bottles of this medicine was all I had to use to put me in fine condition. I had a good appetite, my strength came back, and I once more felt that life was worth living. There is no better medicine—I do heartily recommend it. I shall be glad to answer any communication regarding it if stamped envelope is enclosed.”—MRS. A. W. HAWLEY, Route 3.

PRIMARY IS ONLY
ONE WEEK DISTANT

Final Preparations Being Made by
Election Board for Balloting
on Tuesday, May 4.

The primary election will be held on Tuesday, May 4, one week from today. The coming week promises to be a busy time with candidates who are making their final appeals for support. The election board in Jackson county has completed arrangements for the balloting and all that remains is for the ballots to be distributed among the inspectors according to the number of voters in their respective precincts. The inspectors will receive their supplies and ballots Saturday.

According to the Indiana primary law each party desiring to nominate its candidates by preferential vote must have its own ballot. In the coming election there will be only Republican and Democratic ballots. The voter must ask the election board for the ballot representing the party with which he is affiliated.

Under the law a member of one party may not vote in the primary for candidates of another party. However, if a voter should be challenged, he may be given such ballot if he makes affidavit that he supported a majority of the candidates of such party in the last general election.

The design of the primary law is for known party members to select the candidates of their own party. The time for “switching” from one party to the other is at the election. The primary law governing this point reads as follows:

“Any qualified legal voter in such precinct may challenge any voter who shall offer to vote at such election, and when so challenged such person shall not be entitled to vote unless he shall make an affidavit that he is a qualified voter of the precinct; that at the last preceding election he affiliated with the party for whose candidates he proposed to vote in such primary; that he voted for a majority of the regular nominees of such party; and that he intends to support and vote for the regular nominees of such party at the next election.”

The voter who voted the Republican ticket at the last election who should ask for a Democratic ballot is subject to challenge; the voter who voted the Democratic ticket at the last election and should ask for a Republican ballot is subject to challenge.

Under the new law each must call for the ballot of the party with which he was affiliated at the last election. The law provides for no modifications whatever, it was said today by election officers.

TWELVE OFFER TO DO TERMINAL DUTY

(Continued from first page)

It was also announced that the organizations representing the switchmen had entered into a contract with

the company and that the working agreement is not being carried out. The organizations feel that inasmuch as they were a party to the contract they have a responsibility in carrying out its provisions in good faith. It is stated that the freight con-

gestion is becoming serious as many necessary commodities such as fuel and food are being delayed in transit with a resultant hardship on the public. The organizations desire that transportation channels be opened up and that the free movement of

freight be resumed.

It is believed that the action of the organization members will influence switchmen to return to work and abide by their contract. Other members may also report for duty in Cincinnati in a short time. It is understood that the matter has been presented to other locals and that the additional number of men on duty will soon relieve the congested conditions making the operation of a regular freight schedule again possible.

The lasting friendships made by MAXWELL are due to fine steels

You never forget the lasting qualities of fine shoes, fine gloves, or fine furniture. They linger in your memory.

So it is with a Maxwell. The lasting friendships for this remarkable car multiply day by day.

These are friendships built upon steels, fine steels.

Steels that equal, pound for pound, those in any car built.

They are steels that make possible that wonderful combination of light weight and great strength.

For a Maxwell is built to be light in weight. A light car means economical transportation—if its steels stand up.

Therefore, only those steels that are of brute strength combined with quality go into a Maxwell.

That means paying the very top price for its steels.

But it has earned ever-increasing friendships for Maxwell.

It has given impulse to Maxwell sales. It has spread all over the world ready acceptance for Maxwell.

Reduced to figures, it shows nearly 400,000 Maxwells now in operation. 100,000 more in 1920.

Yet this number will supply but 60 per cent of the demand.

The VALLEY of the GIANTS

By PETER B. KYNE
Author of
"Cappy Ricks"

Copyright by Peter B. Kyne

For fully a minute Bryce stood dumbly gazing upon the sacrifice before his rage and horror found vent in words. "An enemy has done this thing," he cried aloud to the wood goblins. "And over her grave!"

It was a burl tree. At the point where Bryce paused a malignant growth had developed on the trunk of the tree, for all the world like a tremendous wart. This was the burl, so prized for table-tops and panelling because of the fact that the twisted, wavy, helter-skelter grain lends to the wood an extraordinary beauty when polished. Bryce noted that the work of removing this excrescence had been accomplished very neatly. With a cross-cut saw the growth, perhaps ten feet in diameter, had been neatly sliced off much as a housewife cuts slice after slice from a loaf of bread. He guessed that these slices, practically circular in shape, had been rolled out of the woods to some conveyance waiting to receive them.

What Bryce could not understand, however, was the stupid brutality of the raiders in felling the tree merely for that section of burl. By permitting the tree to stand and merely building a staging up to the burl, the latter could have been removed without vital injury to the tree—whereas by destroying the tree the wretches had evidenced all too clearly to Bryce a wanton desire to add insult

"Poor old Dad!" he murmured. "I'm glad now he has been unable to get up here and see this. It would have broken his heart. I'll have this tree made into fence posts and the stump dynamited and removed this summer. After he is operated on and gets back his sight, he will come up here—and he must never know. Perhaps he will have forgotten how many trees stood in this circle."

He paused. Peeping out from under a chip among the litter at his feet was the moldy corner of a white envelope. In an instant Bryce had it in his hand. The envelope was dirty and weatherbeaten, but to a certain extent the redwood chips under which it had lain hidden had served to protect it, and the writing on the face was still legible. The envelope was empty and addressed to Jules Rondeau, care of the Laguna Grande Lumber company, Sequoia, California.

Bryce read and reread that address. "Rondeau!" he muttered. "Jules Rondeau! I've heard that name before—ah, yes! Dad spoke of him last night. He's Pennington's woods-boss and—"

An enemy had done this thing—and in all the world John Cardigan had but one enemy—Colonel Seth Pennington. Had Pennington sent his woods-boss to do this dirty work out of sheer spite? Hardly. The section of burl was gone, and this argued that the question of spite had been purely a matter of secondary consideration.

Evidently, Bryce reasoned, someone had desired that burl redwood greatly, and that someone had not been Jules Rondeau, since a woods-boss would not be likely to spend five minutes of his leisure time in consideration of the beauties of a burl table-top or panel. Hence, if Rondeau had superintended the task of felling the tree, it must have been at the behest of a superior; and since a woods-boss acknowledges no superior save the creator of the pay-roll, the recipient of that stolen burl must have been Colonel Pennington.

Suddenly he thrilled. If Jules Rondeau had stolen that burl to present it to Colonel Pennington, his employer, then the finished article must be in Pennington's home! And Bryce had been invited to that home for dinner the following Thursday by the Colonel's niece.

"I'll go, after all," he told himself. "I'll go—and I'll see what I shall see." (TO BE CONTINUED)

HOW A SICK DOCTOR REGAINED HIS HEALTH

Young doctor 27 years old was told by several eminent physicians that he could not live, but discovered a remarkable formula that restored his health.

In 1898 Dr. A. L. Reusing of Akron, Ohio, had just completed his course at medical college. He had paid his way through medical college by working nights as a telegrapher. Overwork and overstudy had undermined his health, and he consulted many specialists, but they all pronounced him incurable and said that he could live only a few months.

But Dr. Reusing determined that if he must die, he would find the cause, since none of the physicians could diagnose his disease positively.

Knowing that without oxygen the body dies, he began a thorough investigation of the effect of oxygen on the blood. He studied Prof. Virchow's famous "Cell Theory" which proves that the body is only a collection of cells and that there are twelve cell-salts of the body. Just as a flower droops and dies for lack of water, so the cells wither and die for lack of their natural cell-salts.

He knew that the red blood cells carry the iron in the blood and that iron attracts oxygen just as a magnet attracts steel. He learned that by increasing the amount of iron in the blood, the iron attracted the oxygen from the air in the lungs into the blood exactly as the magnet attracts steel. He found that oxygen oxidizes or burns up the impurities, germs, and torn-down cells that are found in the blood.

Through careful research he learned the cell-salts that nature requires to feed the cells and maintain health. This led to the discovery that the health of the body is governed entirely by the health of the blood and that if the blood is rich in oxygen, plasma and iron, and supplied with the natural cell-salts that nourish and maintain the health, vigor and vitality of the cells, the whole body glows with health, strength and energy.

Relentlessly Dr. Reusing made his scientific researches and investigations until his efforts were crowned with success. He discovered a formula which combines the natural cell-salts that feed and nourish the cell of the tissues of the body and rapidly increases the supply of oxygen, iron and plasma of the red blood cells, which re-vitalize and rebuild the entire body.

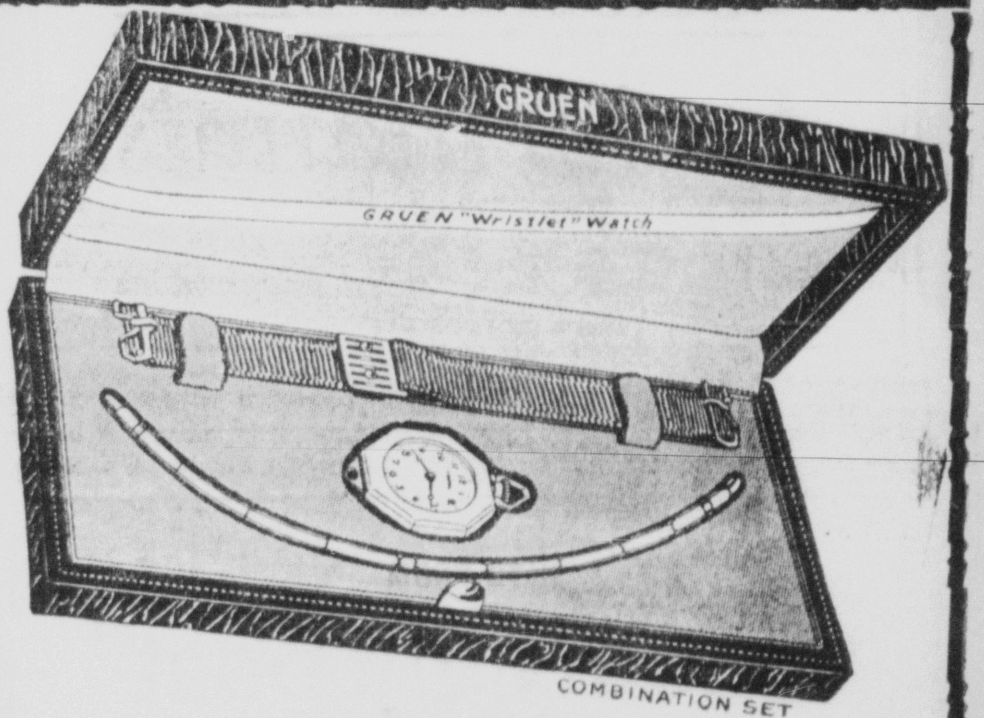

This formula—discovered in a desperate effort to preserve his own life—proved so successful that he gradually restored his health and soon became strong and vigorous. Dr. Reusing is now 47 years old and his ruddy cheeks, bright eyes and vigorous health are irrefutable evidences of the strength-renewing, blood-purifying, health-building properties of his formula.

For nearly 20 years Dr. Reusing has prescribed this formula for thousands of patients in his private practice with wonderful success. The medical profession has recognized its therapeutic value for the treatment of diseases.

So many people have been benefited and restored to health by Dr. Reusing's formula and he is so thoroughly convinced of its therapeutic action by thousands of case records in his own practice, that he has decided to supply this formula, which he has named "REOLO," to the public through registered druggists, who are licensed distributors of the Dr. A. L. Reusing Laboratories, Akron, Ohio.

Each package of "REOLO" contains 100 tasteless tablets, enough for two weeks treatment. It is not expensive. It only costs \$1.00 a package and is positively guaranteed to give beneficial results or your money will be returned.

REOLO is sold in Seymour by W. L. Federmann, who is the licensed distributor.

South Bend, April 27—This city is abreast of the times. Like other American cities, South Bend has fallen before the ouija board.

Local dealers are selling large numbers of the boards and each day increases the sales. Before the war, only one or two hardware dealers had ouija boards for sale. Now they can be bought at almost any downtown establishment.

Most of the boards are sold to women, dealers say. Despite the heavy demand for the boards, there has not yet been a case of "oujaitis" reported to the police.

Louis Seulke, of Indianapolis, is visiting his sister, Miss Doris Seulke, his brother, William Seulke, and his niece, Mrs. Curtis Baise. He will spend several days in this city.

A. J. Seibert, of the county line, was a business visitor here today.
